“At UHS we have a plan of where we are going and what we want to become”
We will be a World Class School that provides a quality education in which students are encouraged to be creative, entrepreneurial and innovative young people with 21st Century skills through collaboration, where outstanding teachers are leaders in learning. The school promotes recognition, quality feedback and the celebration of excellence.

Real Audiences critical in student learning
Over the last year we have begun to embed deep learning into our classrooms through the concept of “presentations of learning” to authentic audiences. This is where students investigate the outcomes of learning through a process of real scenarios to create products that are personally meaningful and useful to others. The “#getdeep” campaign is a perfect example of this connected learning that builds those critical 21st Century skills. Our Year 9 Psychology girls have created a campaign around educating girls in 3rd world countries. (Photo left with beautiful books “The Ride of Life. Learn to stand up for yourself” generously donated to each participating student by the author, Laura Andon.)

I visited a Science class who had built cardboard houses complete with wiring, lights and switches.
In a Wood Technology class Curtis had made a table from the recycled floorboards of our old hall. They are all presenting products that are personally meaningful and are useful for others. They have a real audience.

Have a fantastic week. Denise Lofts, Principal

Principal’s last word....Stay focused ‘til the end.. As super coach, Wayne Bennett repeats to his players... “Don’t stop 3 steps before the end. Go all the way.”
Prezi is versatile and lets you make professional-looking presentations. It's like a free, pared-down version of PowerPoint.

**Gabun Mudji (Good Friends)**

In its third year, this unique program is a sharing of cultures with Aboriginal students from Macksville High School on the north coast visiting our local area for four days. Ulladulla Aboriginal students joined Macksville for activities, team building and a sharing of our local culture. Students participated in outrigging, standup paddleboarding, surfing, fisheries information sessions, interpretive walks with Elders and community members, fishing and a number of sports activities. This program is designed to teach students the importance of local Aboriginal culture and to share it and respect each other, our community, our families and our Elders. Next year Ulladulla students will make the 10 hour trip to Scotts Head to share the local Gumbaynggirr culture. We thank the Ulladulla Aboriginal Lands Council, teachers, staff, NSW Fisheries, Rod Slockee, Pam Burridge and all the local businesses who supported our program.

**A letter of thanks from our Partner Primary school”**

"Dear Denise, . . .I just wanted to publicly acknowledge the work of Mr. Jason Wilson who went above and beyond to welcome a group of Year 6 students to partake in a stimulating art lesson as a transition activity to high school. The students in his class were very inclusive and joined in to make the Year 6 students feel very positive about the many new opportunities that await them as they move up to high school. I also would like to acknowledge the wonderfully creative art work on display in the hall, it is great to see inventiveness, attention to detail and above all creative individual thinking being encouraged. It would be wonderful if we could look at fostering additional opportunities to collaborate in the future. Thank you for all that you are doing.

Mr. Johnson, Teacher, Ulladulla Public

**Amazing Student Talent on Show**
Ulladulla High School's annual art exhibition was an amazing way to showcase the school's wide variety of talent in creative and performing arts. The opening night was a great success with a large number of people from the community attending to support the event. The night included a Year 9 drama act, multiple musical performances and a set of three songs by our much loved band ‘Quite Like Pete’... as well as freedom to walk around the hall and examine all of the incredible works of art submitted by the students. Well done to everyone who worked together to make this exhibition possible, to all the students whose work was on display, and thank you to the community for coming to support it.

**Students of the Week**

**Neisha C** Year 8 is well respected and admired by fellow students and teachers. Neisha always tries to achieve the best results she can in all of her work.

**Marcello P** Year 10 is responsible, considerate and always strives to do his best, taking time to assist others to also achieve. UHS is all about world class learners caring for others.

Congratulations to Neisha and Marcello. Keep up the good work!

We look forward to bringing you next week’s students of the week!

Promotion Roll Call
Good luck to Ava D, Year 9, who is competing in the Junior State Debating Championships at Sydney University today and tomorrow (December 1st & 2nd) as a member of the Illawarra South Coast Team.

Mr Ring’s ‘Headstart’ Construction class working on their Cubby Houses.

Engineers of the future
http://www.robgals.org/

The ANU were in school last week, following a visit to Milton Public School, to share the RoboGals Robotics Workshops with girls from Years 8 and 9 in the morning and from Ulladulla Public School in the afternoon. These workshops are designed to encourage more female students into Science and Engineering studies using the Lego NXT robotics system to program a small robot using environmental sensors to navigate the obstacle course and complete a range of challenges. A fantastic day supported and funded by ANU Partnerships.
